PROFILE

With five years in bartending management, including a significant period as the main bar manager, I've gained valuable experience in a fast-paced hospitality setting. Currently pursuing a degree in Mechanical Engineering alongside a completed Diploma in Engineering, I'm seeking to transition my skills into a web developer/software engineer role. My adaptability, collaborative approach, and problem-solving abilities are assets I aim to apply effectively within the realm of software engineering.

EMPLOYMENT HISTORY

- ❖ **Senior Duty Manager, Morley Noranda Recreation Club** May 2020 — Present
Perth, Western Australia
 - Everything listed prior, in addition to:
 - Conducting first-hand training for new staff
 - Making myself available during times when I am not at work if something should come up for other duty managers during their shift
 - Assisting new members with their applications to join the recreation club
 - Providing information on one or more of the associate clubs we host on-site
 - Being trusted to open and close the bar alone during the week, and run it alone on busy days should the need arise
 - Conducting stock-take, completing the ordering of all stock that goes through the bar, and assisting with roster management
 - Maintenance of miscellaneous technologies around the bar such as the POS terminals, internet, and EFTPOS machines
- ❖ **Duty Manager, Morley Noranda Recreation Club** Jun 2018 — May 2020
Perth, Western Australia
 - Everything listed prior, in addition to:
 - Conducted second-hand training for new staff
 - Supervising and working with multiple casuals during shifts across multiple bars
 - Ensuring a safe environment for my staff by de-escalating dangerous situations such as when someone is cut off or is asked to leave
 - Cooperating with patrons who have booked functions for the night, providing them with what they need for their event, and see to it that they run smoothly
 - Counting the float at the end of the night and ensuring all the tills balance correctly
 - Making sure the TAB is being used correctly by staff, double-checking any suspicious transactions
 - Keeping an eye out for suspicious patrons, whether it be at the bar, around the TAB machines, or on the outskirts of the recreation club perimeter
- ❖ **Bartender, Morley Noranda Recreation Club** Aug 2017 — Jun 2018
Perth, Western Australia
 - Memorized 80+ cocktails, local beers, wines, and their prices for personalized recommendations for patrons
 - Making use of the POS terminal, memorizing button layout and placement for maximum efficiency on shift
 - Welcomed and served 300+ nightly patrons during the weekends, prioritizing customer satisfaction
 - Processed \$4000+ transactions per shift, handling debit, credit, and cash payments
 - Proactively maintained a safe and secure environment by attentively monitoring customer interactions and responsibly managing alcohol consumption
 - Ensured the bar area was clean and organized, allowing my fellow bartenders and I an efficient space to work in
 - Assisting the duty manager in lockup and clean-down procedures

EDUCATION

- ❖ **Curtin University** Mar 2021 — Present
Bachelor of Engineering (Hons), Mechanical Major Perth, Western Australia
- ❖ **Curtin College** Mar 2018 — Nov 2020
Diploma of Engineering Perth, Western Australia

TECHNICAL SKILLS

- | | |
|---|---------------------------------|
| HTML & CSS | NodeJS |
| JavaScript | TypeScript |
| React | MongoDB |
| Teamplayer across diverse teams | Critical Thinking |
| Ability to multi-task efficiently | Adaptability in work flow |

PROJECTS

- ❖ **Personal Portfolio Website**
- Built to showcase my proficiency in a medium sized project, using knowledge in all aspects of web development
 - Github Link: github.com/jam-carter
- ❖ **Spotify Clone**
- Built to practice with API's
 - Github Link: github.com/jam-carter
- ❖ **Booking Website (Airbnb clone)**
- Built to practice a larger scale website project, with multiple pages and indepth customization
 - GitHub Link: github.com/jam-carter
- ❖ **Admin Dashboard**
- Built to practice CSS properties indepth, also to learn how to use CSS libraries, the one used in this project was TailwindCSS
 - github.com/jam-carter
